Leadership, problem-solving, and development skills

Projects

NU Food Order ⧉   03/2023 – 05/2023
Description:
- Designed, developed, and deployed a full-cycle food ordering app that optimized the ordering process, improving customer satisfaction and boosting partner restaurant orders. The app's end-to-end optimization led to increased customer satisfaction and higher restaurant orders. .
- Implemented and integrated the secure user authentication and third-party payment gateways for seamless transactions [Razor Pay].
- Streamlined restaurant order management system, enhancing efficiency.

Tech Stack:
   CSS, React, NodejS, ExpressJS, MongoDB

Digital Portfolio ⧉
Description:
Built with React & Next.js (App Router & Server Actions), TypeScript, Tailwind CSS, Framer Motion, React Email & Resend, Vercel hosting

Work Experience

Examination Suite (HiWel) ⧉   03/2023 – 07/2023
Description:
- Developed a comprehensive examination suite app using the MERN stack, empowering administrators to manage all test-related aspects while enabling students to take tests multiple times.
- Designed and implemented admin features for test creation and modification. A Student interface to track multiple attempts using unique testID.
- Created the wireframe using figma with a responsive design and user-friendly experience, using React for the frontend, Node.js for the backend, MongoDB for data storage and collaborated using Git.

Tech Stack:
   Bootstrap, React, Node.js, Express, MongoDB

Co-curricular
